Shocking Accident.  
R. S. BOORBY,  
BROWN of Abing-  
ton-red had quite a  
shocking accident  
the other day.

"Indeed!"  
"Yes. She was decorating a  
bomb for the cause and doing it  
in a rather tasty fashion—this  
new blue tint for a body color, you  
know, with crimson crossbars and  
gold relief. You really wouldn't  
have known it was a bomb—with  
'Votes for Women' in white enamel  
all across it. Oh, very tasty! Then,  
to set the colors she put it in a  
saucepan on the heater, you know,  
and it went off."

"My word!"  
"It went off and broke three  
French windows in the drawing  
room, and scalded the King  
Charles, and spotted the walls, and  
scorched the cook, and drove  
'Votes for Women' right through  
the oil portrait of her husband's  
aunt, by Sir Templeton Jokes, R.  
A.—the one that's going to leave  
them all her money, and she won't  
leave 'em a hapenny now."

"And what did Mrs. Boorby-  
Brown say?"  
"She had four teeth knocked  
out and couldn't say anything."

**SHOOT DUCKS OUT OF  
SEASON; REPRIMAND**

R. P. Craig and Mike Perez were  
up before Judge Craig this morning,  
accused of shooting ducks out of sea-  
son. The men were cited to appear  
before the court by Deputy Game  
Warden Tony Ortiz, who alleged that  
they had shot ducks out of season.  
The men killed ducks at 7 o'clock  
Sunday evening, according to Ortiz,  
when the season did not open until  
midnight. Ortiz also claimed the  
hunters were without the necessary  
licenses. Both men were reprimanded  
by the court when arraigned to-  
day.

**GROUND IS BROKEN  
EARLY TODAY FOR  
\$50,000 CITY  
BUILDING**

Thomas Isherwood, President  
of Council, Turns First  
Shovelful of Earth Prompt-  
ly at 7 O'clock.

MAYOR SELLERS AND  
ALDERMEN ARE PRESENT

Men and Teams and Scrapers  
Immediately Begin Excava-  
tion Under Direction of City  
Engineer Gladding.

A city building for Albuquerque—  
talked about for ten years—is within  
striking distance of becoming a real-  
ity. The city building is on the way  
and before many weeks—provided  
no unforeseen complications arise—  
proud citizens of Albuquerque may  
point to a structure of steel and con-  
crete on the southeast corner of Sec-  
ond street and Tijeras road and say:  
"That's the new city hall, now being  
built."

Promptly at 7 o'clock this morning  
in the presence of Mayor Sellers and  
a few faithful aldermen and a hand-  
ful of spectators, Thomas Isherwood,  
president of the city council, and  
ranking alderman in point of senior-  
ity, turned the first shovelful of earth  
which started the city building on its  
way.

Immediately following the break-  
ing of the ground, a gang of men  
with teams and scrapers started to  
work and within an hour excavation  
was well under way, with James  
Gladding, city engineer, as the big  
boss.

The city building is to cost approx-  
imately \$50,000, to be a two-story  
and basement structure, built of  
poured concrete, with steel supports.  
The building is to be almost a square,  
nearly by eighty-nine feet, and is to  
be adequate to care for the needs of  
the municipality for the present and  
for some years to come.

The plans for the city building  
were drawn three years ago and con-  
struction has been discussed from  
time to time since, the result being  
that the structure will be just about  
what the city needs.

More than \$20,000 is available for  
construction of the building at the  
present time, this being in a building  
fund started some years ago at the  
suggestion of Dr. J. B. Wroth, pres-  
ident of the council at that time. The  
city has owned for a number of years  
the lots on which the building is  
being built.

Since Albuquerque was incorporated  
as a city, the various departments  
of government have been housed in  
buildings of various types, removal  
from one building to another having  
been customary every few years.

It is therefore a source of consid-  
erable gratification that at last the  
city is to have a building of its own  
and that landlords will no longer de-  
late what the municipality should do  
in the way of rent and observance of  
house rules.

This live store has  
never felt that it would be  
good policy to concentrate its efforts and  
remarkable facilities toward securing and  
offering clothing for any one class of  
men.

Is has, rather, been our  
object to cater to all men, be they young,  
middle aged or elderly, tall or short,  
straight or stooping, slim or stout.

Young men will always  
find any number of youthful, dashing  
models to choose from.

Middle aged men: suits  
so designed as to exactly fit their person-  
ality and properly reflect the dress ideals  
of middle age.

And likewise, older men  
will find those conservative models in  
which have been carried out to perfec-  
tion the firmly fixed clothes-idea of the  
older generation.

Thus for all men, we  
have solved the good clothes-question with  
perfect style, perfect workmanship and  
perfect quality, as expressed in garments

Special selection is the keynote of our stock of  
STYLEPLUS. In the first place, the makers are the  
largest manufacturers of men's clothing; the woollens  
are selected by experts and many of them are dis-  
tinctive patterns selected for this one suit.

We never cut the price of STYLEPLUS CLOTHES  
for the reason that the manufacturers are able to  
turn out such a good suit only by a scientific plan  
of manufacturing. They sell on a small margin of  
profit and we sell STYLEPLUS CLOTHES close when  
we sell them for \$17.

We give you the advantage of special selection at  
the very beginning of the season when you need your  
clothes most.

Why wait for sales, thinking that you can buy  
clothes at a low cost, when in reality the original  
prices have been too high, and often the clothier sells  
out and has only a depleted stock of left-overs of the  
season.

We are doing a volume business at a small mar-  
gin of profit without "cut-price sales." This is the  
most intelligent way of buying clothes, and we be-  
lieve you are one of the men who will appreciate it.  
The price of STYLEPLUS CLOTHES is \$3 to \$8 less  
than clothes made by old-fashioned methods.

Come in and see our wide selection in both suits  
and overcoats.
